in an anthropologist on mars oliver sacks uses case studies to illustrate the myriad ways in which neurological conditions can affect our sense of self our experience of the world and how we relate to those around us writing with his trademark blend of scientific rigour and human compassion he describes patients such as the colour blind painter or the surgeon with compulsive tics that disappear in the operating theatre patients for whom disorientation and alienation but also adaptation are inescapable facts of life an inexhaustible tourist at the farther reaches of the mind sacks presents in sparse unsentimental prose the stories of seven of his patients the result is as rich vivid and compelling as any collection of short fictional stories independent on sunday now part of the picador collection a series showcasing the very best of modern literature

the inspiration for the nbc series brilliant minds from the bestselling author of the man who mistook his wife for a hat fascinating portraits of neurological disorder in which men women and one extraordinary child emerge as brilliantly adaptive personalities whose conditions have not so much debilitated them as ushered them into another reality here are seven detailed narratives of neurological patients including a surgeon consumed by the compulsive tics of tourette s syndrome unless he is operating an artist who loses all sense of color in a car accident but finds a new sensibility and creative power in black and white and an autistic professor who cannot decipher the simplest social exchange between humans but has built a career out of her intuitive understanding of animal behavior sacks combines the well honed mind of an academician with the verve of a true storyteller

neurological patients oliver sacks once wrote are travellers to unimaginable lands an anthropologist on mars offers portraits of seven such travellers including a british columbia surgeon consumed by

the compulsive tics of tourette s syndrome unless he is operating an artist who loses all sense of colour in a car accident but finds a new sensibility and creative power in black and white and an autistic professor who cannot decipher the simplest social exchange between humans but has built a career out of her intuitive understanding of animal behaviour

in this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of an anthropologist on mars seven paradoxical tales don t say we didn t warn you these reviews are known to shock with their unconventionality or intimacy some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy don t buy this book if 1 you don t have nerves of steel 2 you expect to get pregnant in the next five minutes 3 you ve heard it all

this new user friendly handbook designed to support parents whose children have diagnosed with asd provides answers on a range of topics in brief articles arranged into alphabetical categories

inspired by the 1 new york times bestseller she persisted by chelsea clinton and alexandra boiger a chapter book series about women who spoke up and rose up against the odds including temple grandin in this chapter book biography by beloved author lyn miller lachmann steminist readers learn about the amazing life of temple grandin and how she persisted temple grandin is a world renowned scientist animal behavior expert and autism spokesperson who was able to use her way of thinking and looking at the world to invent and achieve great things complete with an introduction from chelsea clinton black and white illustrations throughout and a list of ways that readers can follow in temple grandin s footsteps and make a difference a perfect choice for kids who love learning and teachers who want to bring inspiring women into their curriculum and don t miss out on the rest of the books in the she persisted series featuring so many more women who persisted including sally ride virginia apgar helen keller and more praise for she persisted temple grandin miller lachmann s deft narrative is inspiring informative and engaging a solid addition to young nonfiction collections school library journal

garcia began writing about autism because he was frustrated by the media s coverage of the myths that the disorder is caused by vaccines the narrow portrayals of autistic people as white men working in silicon valley as a latino a graduate of the university of north carolina and working as a journalist covering politics in washington d c garcia realized he needed to put into writing what so many autistic people have been saying for years autism is a part of their identity they don t need to be fixed from education to healthcare he explores how autistic people wrestle with systems that were not built with them in mind adapted from jacket

a voice for the community of lds scholars

the politics of autism is a forthright appraisal of controversies behind reports of rising autism prevalence and methods of its diagnosis the need for a sea change in autism education the anti vaccine movement and unproven homeopathies and of autism research priorities it provides guidelines for policy changes and changes to clinical practice with the goal of improving the lives of individuals and their families living with autism

written in an easily accessible non threatening presentation ethics for the multicultural world offers clear explanation of how philosophical ethics has historically evolved as a response to muddle and banal moral decisions based on confusion caused by the plurality of ethical and moral beliefs the book explains why codes of ethics are important and why the codes themselves have to be grounded in a broader philosophical context to be useful in multicultural societies this accessible introduction provides an overview of applied ethics and social pluralism moral agents and situational control and professionalism as well as an introduction to muddle drift banality and subjectivisms verses morality empirical and analytic studies moral foundations and concepts six normative theories and application strategy for individuals interested in professional ethics

from the perspective of yoga psychology the view from infinity even our basest instincts our most mundane acts and our greatest follies can be understood as the limited or distorted expressions of a purposeful compassionate and infinite intelligence yoga psychology is based on the writings of sri aurobindo the revolutionary poet and philosopher who founded the independence movement in india later led by mahatma ghandi

the present volume attempts to integrate two streams of cognitive research which often run parallel largely conceptual investigations on the overall framework of human cognition and the much more empirical study of neurocognitive developmental disorders in this case autism the book is partly a conceptual analysis exploring the issue of domain specificity and its place in cognitive theory but it also offers a detailed summary of the phenomena of autism a critical evaluation of its cognitive psychological models and presents new empirical findings on the complexity of beyond childhood development of theory of mind ability in autism besides the integration and an overview of these three major themes the novelty of the presented theses lies primarily in the comprehensiveness of the offered conceptual framework for domain specificity and in the empirical findings which strongly suggest that functioning theory of mind ability and non theory of mind compensatory strategies co exist

this brief exploration of the essentials of abnormal psychology offers readers an engaging innovative systems approach by integrating the biological psychological and social perspectives in an interesting and concurrent story readable reader friendly research methods are mainstreamed throughout the text detailed case studies and briefer cases illustrate interesting clinical issues a getting help feature in each chapter directs readers to responsible sources if they are looking for help for themselves or others abnormal behavior examples definitions and methods of study perspectives on causes of abnormal behavior treatment of psychological disorders classification and assessment mood disorders anxiety disorders traumatic stress disorders dissociative disorders and somatoform disorders stress and physical health personality disorders eating disorders substance abuse disorders sexual and gender identity disorders schizophrenic disorders pervasive developmental disorders and psychological disorders of childhood mental health and the law anyone needing a brief accessible introduction to the major topics of abnormal psychology
